

Rochus Skanzen

In what ways was life in the past more sustainable than today?

1

Buildings with Zero Ecological Footprint

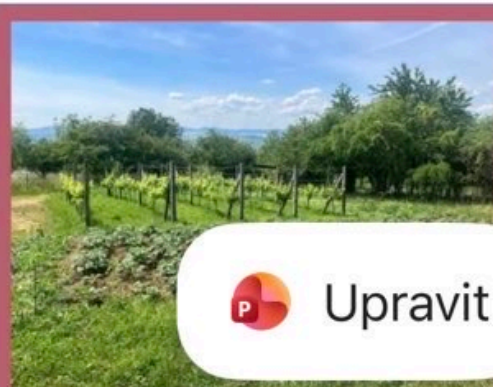

- Local Building Materials
- Mud, Wood, Stone, Straw
- Easy Recycling of Houses

2

Food Without Packaging and Trucks

- Seasonal and local diet
- Heritage crop varieties
- Zero plastic or biological waste

3

3

Zero-Waste Lifestyle

- Repairing Instead of Discarding
- Circular Economy in Practice
- Human and Animal Power

4

Traditional Laundry

- Washing clothes without electricity
- The washboard and manual labor
- Respecting resource consumption

5

The Evolution of Farming

- The shift in traditional

The Evolution of Farming

- The shift in traditional agriculture
- Early stage: purely manual work (Quern Stone)
- Later stage: introduction of mechanical tools (Grain Cleaner)

6

Conclusion and Message for Today

- Returning to the Roots
- Reducing Consumption and Buying Local
